

KUNAL SINGH

+91 9318324804 — kunalsingh839469@gmail.com — LinkedIn — GitHub

Professional Summary

Recent B.Tech graduate in Information Technology with strong proficiency in Python, JavaScript, SQL, and software development fundamentals. Hands-on experience developing web applications, REST APIs, and database-driven solutions through academic projects and internships. Familiar with software testing, debugging, automation concepts, Git-based development workflows, and SDLC. Passionate about building reliable automation tools, solving complex problems, and contributing to high-quality software solutions in collaborative Agile environments.

Education

Bachelor of Technology (Information Technology)

Noida Institute of Engineering and Technology, AKTU, Uttar Pradesh

2021 – 2025

Higher Secondary Certificate (CBSE)

Government Boys Senior Secondary School, New Delhi

2021

Secondary School Certificate (CBSE)

St. Mary's School, Ghaziabad

2018

Technical Skills

Programming Languages: Python, JavaScript, SQL

Web Technologies: HTML5, CSS3, React.js, Laravel Blade, Tailwind CSS, jQuery, REST APIs

Database: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Postman, Jupyter Notebook, Vite

Core Concepts: Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Software Testing, Debugging, REST API Integration, Version Control, Responsive Web Design, Technical Documentation, Problem Solving, Team Collaboration

Projects

Trevo Innovations – Corporate Recruitment Website

[Live](#)

Frontend Developer — Brightpreneur Agency

Laravel (Blade) — Tailwind CSS — JavaScript — jQuery — Admin Panel Integration — Responsive Design

- Developed the responsive frontend of a corporate recruitment website using Laravel Blade templating, Tailwind CSS, JavaScript, and jQuery.
- Built dynamic, fully editable sections including hero banners, service cards, industry practice areas, testimonials, comparison tables, and FAQs, all managed through a custom admin panel.
- Designed reusable Blade components that dynamically rendered admin-managed content such as text, images, cards, and sliders instead of relying on hardcoded data.
- Implemented interactive UI features including testimonial and logo sliders, comparison table interactions, and accordion-style FAQs using jQuery.
- Collaborated closely with backend developers to integrate admin panel data with frontend components, enabling real-time content updates while maintaining a responsive and user-friendly interface.

Neighbourlly – Geo-Fenced Services Exchange & Communication Platform

[Live Demo](#)

React.js — MongoDB — Socket.io — RabbitMQ — REST APIs

- Developed a scalable community platform with modular architecture using React.js and MongoDB for location-based service exchange and communication.
- Implemented REST API integration and real-time messaging using Socket.io to enable seamless user interactions.
- Integrated RabbitMQ for reliable asynchronous message processing and optimized MongoDB queries for efficient data handling.
- Performed debugging, functional testing, and issue resolution to improve application reliability, performance, and user experience.
- Maintained technical documentation and collaborated using Git-based version control throughout the development lifecycle.

Internship Experience

Frontend Developer Intern — The Brightpreneur Agency

Nov 2025 – Apr 2026

- Developed responsive frontend interfaces for client websites using Laravel Blade, Tailwind CSS, JavaScript, and jQuery.
- Built reusable UI components and integrated dynamic content managed through custom admin panels.
- Collaborated with backend developers to connect frontend Blade templates with database-driven content and real-time updates.
- Implemented responsive layouts, interactive UI components, and optimized website performance across desktop and mobile devices.
- Followed Git-based development workflows, resolved frontend issues, and participated in code reviews to ensure high-quality deliverables.

Web Developer Intern — TechnoHacks EduTech

Aug 2023 – Sep 2023

- Developed interactive web applications using HTML, CSS, and JavaScript following SDLC practices.
- Performed testing, debugging, documentation, and feature enhancements for developed modules.
- Improved application usability through responsive UI implementation and code optimization.

Web Developer Intern — Oasis Infobyte

Mar 2023 – Apr 2023

- Built web applications while following structured software development and testing processes.
- Worked with JavaScript logic, debugging, responsive interfaces, and feature implementation.
- Maintained project documentation and collaborated within the development environment.

Certifications

- IBM – Databases and SQL for Data Science with Python (Honors)
- University of Michigan – Python Basics
- IBM – Introduction to Web Development with HTML, CSS & JavaScript

Leadership & Achievements

Event Management Team Leader — E-Cell NIET

Nov 2022 – Jun 2025

- Led planning and execution of 7–8 technical and entrepreneurship events annually with cross-functional teams.
- Coordinated task allocation, documentation, scheduling, and stakeholder communication to ensure successful event execution.
- Strengthened leadership, teamwork, analytical thinking, communication, and organizational skills while managing multiple responsibilities.
